

**Investment Objective and Policy**

The Sub-Fund's investment objective is to provide capital growth and income over the long-term, by investing primarily in units or shares of UCITS or other UCIs, providing exposure to global equities.

In order to achieve its objective, the Sub-Fund invests primarily in a diversified portfolio of equity mutual funds, including ETFs, managed by leading international asset managers, which mainly invest in equities listed in international exchanges, in developed and/or emerging markets, specifically focusing on equities of companies that are exposed to and expected to benefit from long-term, structural trends and themes. The Sub-Fund seeks to identify opportunities in areas such as climate change, innovative technologies, evolving consumer trends and demographic changes.

The Sub-Fund is actively managed. Our investment process is based on the assessment of quantitative and qualitative criteria, with the purpose of selecting individual funds.

Furthermore, the Sub-Fund applies certain ESG criteria in order to define an eligible universe of underlying funds that has leading ESG ratings and tilt the portfolio in favour of strong sustainability performers. This is mainly implemented through a combination of exclusion/negative screening and positive/best-in-class screening.
